

### Bluetooth® Speaker System Starter Kit

- High-quality JBL® speakers integrated into bulbs
- Add up to 7 Satellite bulbs (100 ft. maximum distance from Master bulb)
- Control lighting and volume with the iOS/Android app
- Customize settings: L/R channel audio, individual brightness, sound EQ

### Turn It On & Turn It Up

Create an unexpected entertaining experience with Pulse — the high-quality, wireless sound system installed into your existing light sockets! This dimmable bulb combines the long-lasting energy efficiency of LED light with the bold, rich audio of a 13-watt JBL® Bluetooth® speaker. The Pulse Starter Kit includes 1 Master bulb and 1 Satellite bulb — each Pulse Master bulb can sync up to 7 Satellite bulbs (sold separately). Just twist the Pulse bulb into any standard light socket then adjust both lighting and sound from the iOS/Android app.

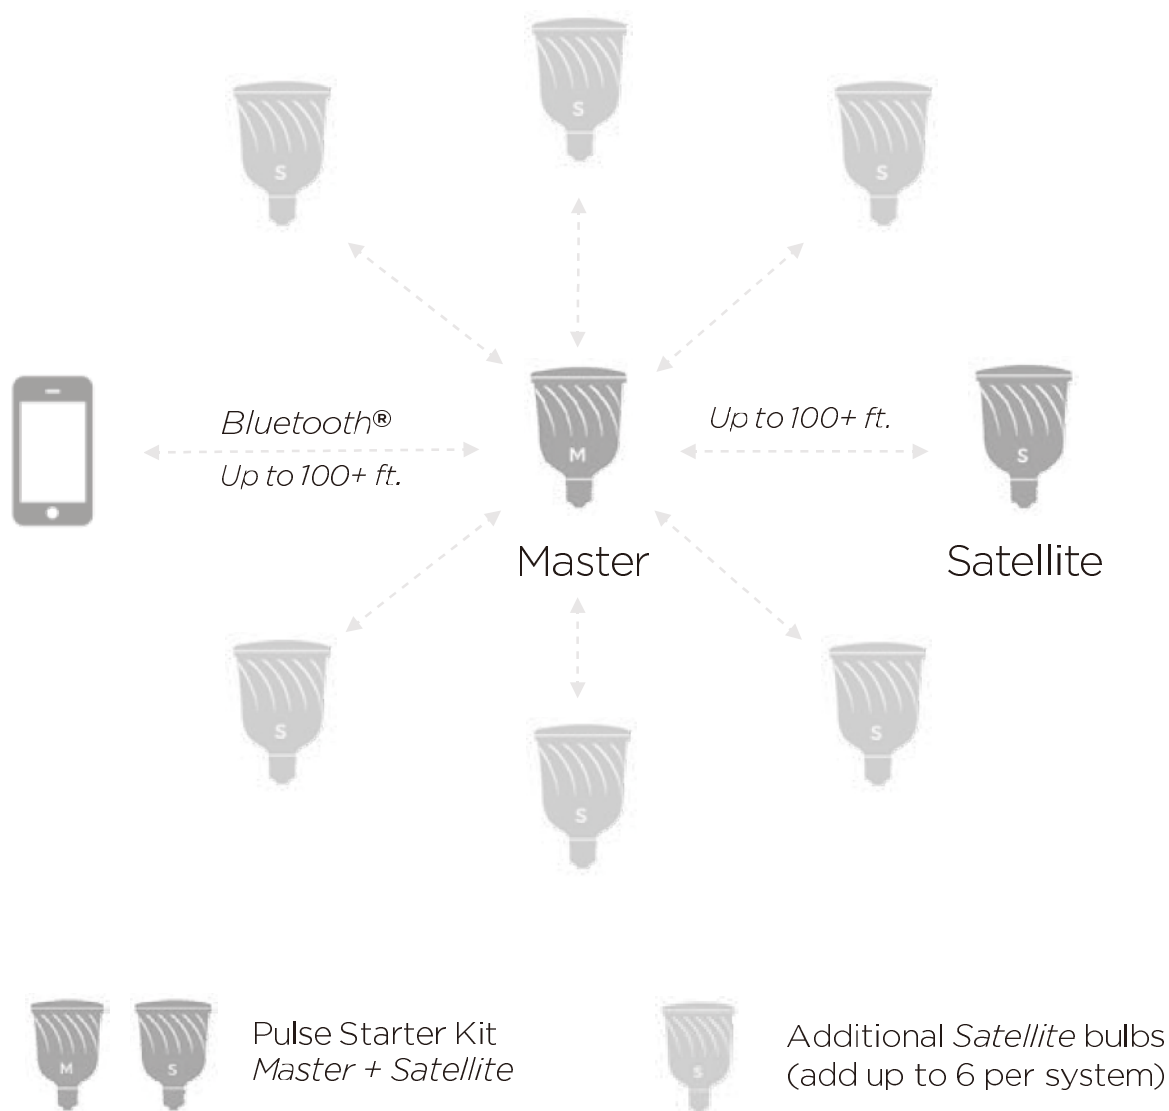

### Technical Data

Model number	C01-BR30
Base	E26
Power supply	100-120V, 60Hz
Power consumption	15W (avg.) / 30W (max., LED light + loudspeaker)
Operating temp	32°F - 95°F
Operating humidity	85%
Brightness	600 lumens
